Hiring Manager
EMEX
Mumbai, India

Re: Android Developer-Intern Vacancy

Dear Hiring Manager:

I am excited to apply for the position of Android Developer - Intern at EMEX, India, advertised on the Internshala website. I am Google Certified Associate Android Developer. Also, I have completed the Android Developer Nanodegree from Udacity. I learned about your company from the website. I have since learned about the great working environment and I am excited at the idea of being part of your team.

I am an enthusiastic Android developer with a special interest in Android Application Development. I have developed over six Android applications. My three apps published on the play store. I am passionate about open-source contributions, new technologies and creative problem-solving. I love to work on challenging projects and learn from my teammates while doing this. My Android Developer Nanodegree, MOOC Coursework, Open Source Project Work, and leadership experience have prepared me well for this position. The Nanodegree program has taught me how to build fully functioning Android apps expected by the industry using Android SDK. I have hands-on experience with other technologies like HTML, CSS, MYSQL, SQLite, Git, Github. I like working on different Libraries and APIS to find solutions and designing interfaces for great user experiences. In the past, I have successfully managed a project team of three members and solved problems within given timelines.

The coursework I have completed has helped me to develop my problem-solving skills. I've studied Object-oriented Programming in Java, Data Structures and Advanced Data Structures at the University of Sun Diego, California, at Coursera. I have worked on an open-source project Udacity Alumni Android app. In this app implemented code for animation in the app, also contributed for OpenMF organization collect app. While working on the open-source project, I've learned about software version control, creating issues and implementing code fixes for issues in software products.

My resume holds information regarding all of my projects and their deliverables and will provide you with a better understanding of what I will bring to the organization. I would greatly appreciate the opportunity to work with and learn from the EMEX's talented team. Thank you for your time and consideration and I look forward to hearing from you. The best way to reach me is by phone or email.

Sincerely,

Vikas R. Desale
